

24 May 2021

**DeepMatter Group plc**  
("DeepMatter", the "Company" or "the Group")

**Notice of Results and Investor Presentation**

DeepMatter (AIM: DMTR), the AIM-quoted company focusing on digitising chemistry, will announce its audited financial results for the year ended 31 December 2020 on Tuesday 1<sup>st</sup> June 2021.

**Online investor presentation**

DeepMatter's CEO, Mark Warne, and CFO, Fraser Benson, will provide a live investor presentation, relating to the results, via the Investor Meet Company platform on Friday 4<sup>th</sup> June 2021 at 13:00 UK time.

The Company is committed to ensuring that there are appropriate communication structures for all elements of its shareholder base so that its strategy, business model and performance are clearly understood.

- The online presentation is open to all existing and potential shareholders.
- Questions can be submitted any time during the live presentation, via the "Ask a Question" function. Whilst the Company may not be in a position to answer every question it receives, it will address the most prominent within the confines of information already disclosed to the market. Responses to the Q&A from the live presentation will be published at the earliest opportunity on the Investor Meet Company platform.
- Investor feedback can also be submitted directly to management post the event to ensure the company can understand the views of all elements of its shareholder base.

Investors can sign up to Investor Meet Company for free and add to meet DeepMatter via <https://www.investormeetcompany.com/deepmatter-group-plc/register-investor>. Investors who have already registered and added to meet the Company will be automatically invited.

**About DeepMatter Group plc**

DeepMatter is building and commercialising the most powerful data platforms, to enable scientists to easily perform and optimise chemical reactions, by increasingly integrating chemistry with technology. Ultimately this will allow the greater use of artificial intelligence and reaching a point where chemicals can be autonomously synthesised through robotics.
