Editors' Note

Oxford Advanced Surfaces Group plc designs, develops and manufactures surface modification technology to address the bonding challenges of advanced materials in the automotive, aerospace, electronics and renewable energy markets. Our proprietary platform technology, Onto™ highly reactive chemistry, provides manufacturers with versatile solutions for even to the most difficult-to-bond substrates such as engineering plastics, thermoplastic composites and carbon-based materials. Onto™ surface treatments can be integrated into existing manufacturing facilities for use in a wide range of surface functionalisation and adhesion promotion applications.
