DeepMatter Group plc
("DeepMatter", the "Company" or "the Group")

Grant of Options

DeepMatter (AIM: DMTR), the AIM-quoted company focusing on digitising chemistry, announces that options over a total of 5,000,000 ordinary shares have been granted to Alan Dunn, Chief Operating Officer, under the Share Option Plan 2017 ("Options"). The exercise price of the Options is 2.5p, aligned with those issued to the management team in 2019 under the same scheme. Provided Alan Dunn remains an employee, his options vest over 36 months starting from the commencement of his employment subject to the specific share price triggers set out in the table below being reached. All unexercised options lapse after 10 years from the date of grant.

About DeepMatter Group plc

DeepMatter's long term strategy is to integrate chemistry with technology, thereby enabling a greater use of artificial intelligence and reaching a point where chemicals can be autonomously synthesised through robotics. In the near term this involves the provision of an integrated software, hardware and artificial intelligence enabled platform, DigitalGlassware™, to scientists across research and process development sectors.

The DigitalGlassware™ platform allows chemistry experiments to be accurately and systematically recorded, coded and entered into a shared data cloud. The platform is designed to enable chemists to work together effectively; sharing the details of their experiments from anywhere and in real-time, so that work is not needlessly duplicated, time and money wasted, and ultimately so new discoveries may be made faster.
